

AL RAWNAQ EVENTS

Company Profile

LED displays. Interactive experiences.
Technology that brings events to life.

UAE | EVENT TECHNOLOGY

www.alrawnaqevents.ae

One partner. Complete event technology.

Al Rawnaq Events supplies, installs and operates LED displays, interactive games and AI-powered experiences for exhibitions, corporate events, brand activations, retail spaces and family entertainment.

Based in Sharjah, we deliver projects across the UAE and support GCC deployments. We bring display technology, custom branding, software and on-site operation together around the space, audience and event brief.

01

Visual technology

Straight, curved and transparent LED; custom display structures and immersive visuals.

02

Interactive experiences

Sports challenges, touch and motion games, branded content and live scoring.

03

AI & guest capture

AI Mirror, themed portraits, QR sharing and optional printing.

Museum of the Future, Dubai

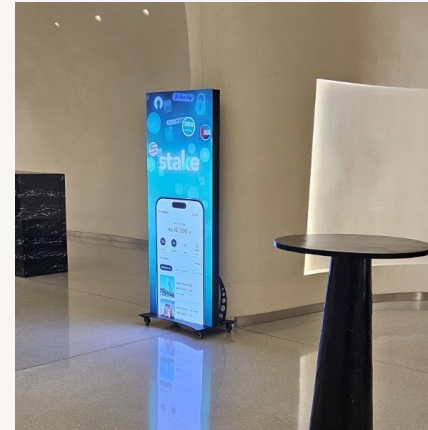

Stage LED, cubes, portrait displays and corridor towers for a corporate event.

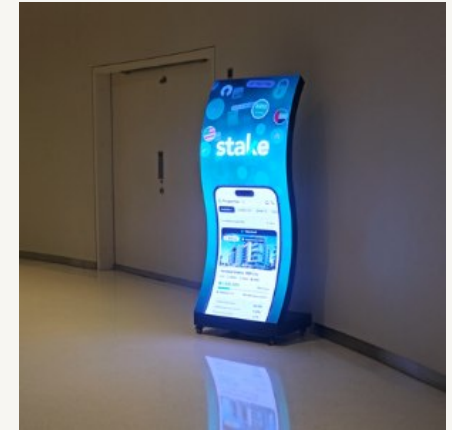

Large-format stage LED

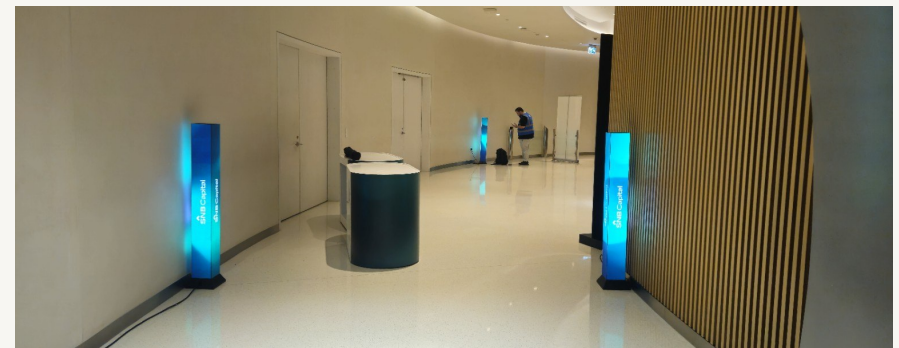

Multi-sided LED cubes

Portrait LED display

Curved LED poster

LED towers along the guest route

Exhibitions & private events

LED walls and custom display formats designed around each venue and brand.

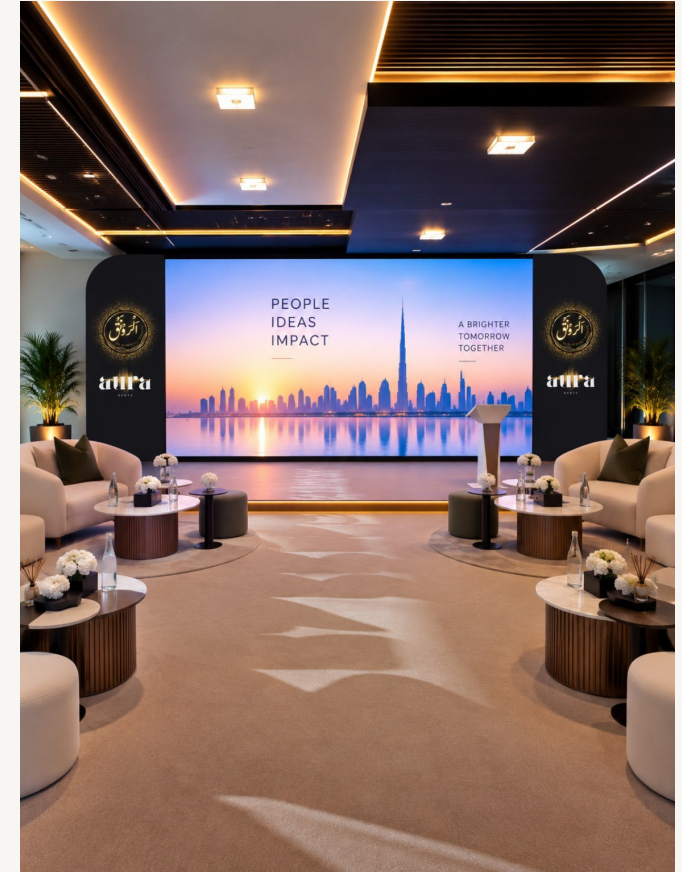

ADNEC, Abu Dhabi

Exhibition booth LED installation for presentation and visual content.

Dubai World Trade Centre

Custom oil-bottle LED display for an exhibition booth.

Cylindrical
LED tower

Multi-sided and curved formats extend digital content beyond a conventional screen.

LED beyond the flat screen

Architectural forms that make the display part of the event environment.

LED arches & entrances

Extend content across the sides and top of an entrance to frame the guest journey.

Curved & corner LED

Create curved visual backdrops and connected layouts for booths, stages and feature installations.

Immersive LED - ORA event

A curved LED environment presenting Bayn, Ghantoot by ORA.

Connected curved LED surfaces wrap the visual story around the audience, creating an immersive setting for a property showcase.

ORA roadshow

LED presentation displays supporting Bayn property showcases across event settings.

Curved LED presentation

Roadshow LED screen

Property visual display

LED with model showcase

Flexible LED configurations carry campaign films, property visuals and masterplan content into different venues.

Transparent LED. Open space, moving content.

See-through displays for event entrances, retail architecture and visual features.

Aster event, Abu Dhabi

Transparent LED entrance installation that preserves visibility through the display.

Transparent LED film

Digital content integrated with a curved architectural surface.

Aster, Abu Dhabi

LED cubes, portrait displays and an interactive touch screen for Emirati Women's Day.

Sculptural LED cubes

Branded multi-sided displays form a feature within the event space.

Portrait LED display

Event messaging and themed visuals for Emirati Women's Day.

Interactive touch screen

A large digital canvas invites guests to participate in the experience.

Indoor events & outdoor football

Large-format LED displays for event content and live sports viewing.

Indoor lounge LED wall

A large LED backdrop for event visuals in a lounge setting.

Outdoor football viewing

LED screen installation for football viewing in an outdoor seating area.

Visual technology across event settings

LED displays for hotel experiences and community venues.

Al Habtoor Polo Resort, Dubai

LED display for an interactive games event.

Jordanian Social Club, UAE

A large transparent LED event display that preserves depth and visibility across the stage.

Play. Compete. Connect.

Branded games turn the screen into a shared experience for visitors, teams and families.

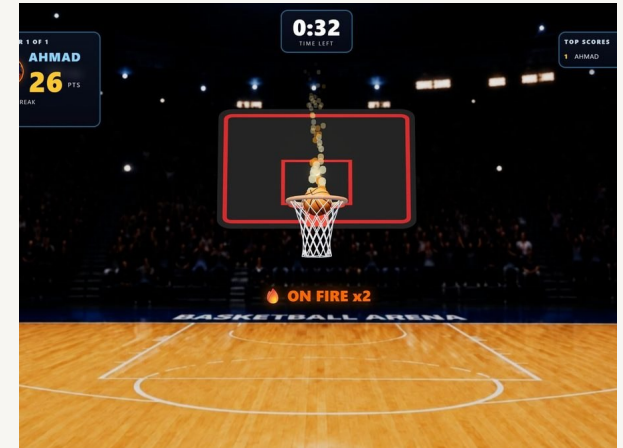

Football Arena

Goal challenges and accuracy games for sports activations and fan zones.

Target Arena

Timed challenges, player profiles and competitive scoring.

Basketball Arena

Fast rounds, branded presentation and live scores.

CUSTOM BRANDING

LEADERBOARDS

EVENT SUPPORT

Move the audience into the experience.

Interactive walls and floors for schools, malls, festivals and community events.

Interactive walls

Touch, wall-ball and motion games for active participation and team play.

Reactive floors

Visual effects and games that respond as guests move through the space.

MotionCube games

A flexible game library for children, families and supervised activity zones.

Configured around the audience, available space, branding and guest flow.

AI Mirror. A branded moment to take away.

Guest capture, themed transformations and digital delivery in one experience.

Portrait LED mirror setup

Original portrait

AI transformation example

Event branding and themed visual styles
Guest review and retake
QR sharing and optional photo printing
Operator controls and on-site support

Projection and holographic experiences

Floating visual effects, mapped surfaces and content designed around the event environment.

Holographic mesh

Transparent gauze and carefully prepared visuals for reveals, storytelling and stage effects.

Projection mapping

Content alignment and projection planning for stages, sculptural builds and immersive presentations.

From your brief to the live event.

01**Brief & site plan**
